DISSOLVE THE UNION.

Dissolve the Union! Who would part
The chain that binds us heart to heart?
Each link was forged by sainted sires,
Amid the Revolution's fires;
And cool'd—oh, were so rich a flood?—
In Warren's and in Sumpter's blood!

Dissolve the Union! Be like France,
When "Terror" rear'd her bloody lance,
And man became destruction's child,
And woman in her passions wild,
Danced in the life-blood of her Queen,
Before the dreadful guillotine!

Dissolve the Union! Roll away
The spangled flag of Glory's day;
Blot out the history of the brave,
And desecrate each Patriot's grave,
And then above the wreck of years,
Quaff an eternity of tears!

Dissolve the Union! Can it be,
That they who speak such words are free;
Great God! did any die to save
Such sordid wretches from the grave—
When breast to breast, and hand to hand,
Our Patriot fathers freed the land?

Dissolve the Union! Ho! Forbear!
The sword of Democles is there;
Cut but a hair, and earth shall know
A darker, deadlier tale of woe
Than History's crimson tale has told,
Since Nerce's car in blood o'er roll'd.

Dissolve the Union! Speak! ye hills,
Ye everlasting mountains cry;
Shriek out! ye streams and mingling rills,
And ocean roar in agony!
Dead heroes! leap from Glory's sod!
And shield the manor of your blood!

A THRILLING GHOST STORY.

THE DEAD CHILD'S GHOST.

The New York *Presbyterian* of lato date relates this story:

We were returning from our spring meeting of Presbytery—one gentleman and two young ladies—in a "rockaway," and the road none the best. Night, cold and damp, overtook us eight or ten miles from home, but only a short distance from Judge Blank's who, after we had arrived at his house, narrated the following unique tale. Said the Judge as follows: "Years ago we had in our house a sweet little child, about four years of age, and the object, of course, of a very tender affection. But sickness laid its hand upon it. Remedies, promptly resorted to, all proved in vain. Day after day the rose faded from the cheek, and the fire in the eyes burned low; and at length death closed those eyes and sealed those lips forever; and we learned by trying experience how intense darkness follows the quenching of one of those little lights of life.

"The time rolling sadly on, brought us at length to the hour appointed for committing our treasure to the ordinary custody of the grave. The friends assembled, the customary services were held, the farewell taken, and the little form securely shut beneath the well-screwed coffin-lid, and in due form the grave received its trust. We looked on and saw the earth thrown in, the mound raised above, and the plates of sod neatly adjusted into a great sheltering roof, and then wended our way back to our desolate home. Evening came on and wore away. My wife had gone into an adjoining room to give some directions to a servant, and I, unfitted by the scene of the day for aught else, had just laid my head on my pillow in our room upon the first floor of the house, when I heard a shriek, and in a moment more, my wife came flying into the room, and springing upon the bed behind me exclaimed:

"'See there! our child! our child!"

"Raising my head, my blood froze within me and the hair upon my head stood up as I saw the little thing in grave clothes, with open but manifestly sightless eyes, and pale as when we gave it the last kiss, walking slowly toward us. Had I been alone—had not the extreme terror of my wife compelled me to play the man, I should have leaped from the window and bed without casting a look behind.

"But not daring to leave her in such a terror, I arose, sat down in a chair, and took the little creature between my knees—a cold sweat covered my body—and gazed with feelings unutterable upon the object before me. The eyes were open in a vacant stare. The flesh was colorless, cold and clammy; nor did the child appear to have the power of either speech or hearing, as it made no attempt to answer any of our questions. The horror of our minds was the more intense as we had watched our child through its sickness and death, and had been but a few hours before eye witnesses of its interment.

"While gazing upon it, and asking in my thoughts, 'What can this extraordinary providence mean? for what can it be sent?' the servant girl, having crept to the door, after a time, suggested, it looks like Mrs. ——,s child.

"Now our neighbor had a child about the same age as ours, and its constant companion. But what could bring it to our home at that hour and in such a plight? Still the suggestion had operated as a sedative upon our excited feelings, and rendered us more capable of calm reflection. And, after a time, we discovered in truth, that the *grave* clothes were *night* clothes, and the corpse, a somnambulist. And it became manifest that the excitement attending the loss and burial of its playmate, working upon the child's mind in sleep, was the cause to which we were indebted for this untimely visit.

Wiping away the perspiration, and taking a few long breaths, I prepared to countermarch the little intruder back to its forsaken bed.—Back we went, it keeping at my side, though still asleep. It had walked quite a distance across the wet grass. I found the door ajar, just as the fugitive had left it, and its sleeping parents unconscious of its abscence. The door creaked as I pushed it open, and awakened the child who looked wildly around a moment, and then popped into bed.

"Now, if it had not been for my wife, as I have said, I should, on the appearance of this apparition, have made a leap of uncommon agility from that window; and after a flight of uncommon velocity for a person of my age and dignity, I should have been ready to take my oath in any court, either in Christendom or beathendom, that I had seen a ghost."

A LAUGHABLE STORY.

The Mobile Register is responsible for the following mirth-provoking incident:

For twenty-three years, old Jake Williard has cultivated the soil of Baldwin county, and drawn therefrom a support for himself and wife. He is childless. Not long ago Jake left the house in search of a missing cow. His route led him through an old worn out patch of clay land, of about six acres in extent, in the centre of which was a well, twenty-five or thirty feet deep, that at some time probably had furnished the inmates of a dilapidated house near by with water. In passing by this spot, an ill wind lifted Jake's 'tile' from his head, and maliciously wafted it to the edge of the well, and in it tumbled.

Now, Jake had always practised the virtue of economy, and he immediately set about recovering his hat. He ran to the well, and finding it was dry at the bottom, he uncoiled the rope which he had brought for the purpose of capturing the truant cow, and after several attempts to catch the hat with a noose, he concluded to save time by going down into the well himself. To accomplish this, he made fast one end of the rope to a stump hard by, and was quickly on his way down the well.

It is a fact, of which Jake was no less oblivious than the reader thereof, that Ned Wells happened to be in the old dilapidated building aforesaid, and that an old blind horse, with a bell on his neck, who had been turned out to die, was lazily grazing within a short distance of the well.

The devil himself or some other wicked spirit put it into Ned's cranium to have a little fun, so he quietly slipped up to the horse, and unbuckling the bell-strap, approached with slow measured 'ting-a-ling' the edge of the well.

"Dang that old blind horse!" said Jake, "he's a-comin' this way sure, and ain't got no more sense than to fall in here. *Whoa*, Ball."

"But the continued approach of the 'ting-a-ling' said just as plainly as words that 'Ball' wouldn't *whoa*. Besides Jake was at the bottom, resting, before trying to 'shin' it up the rope.

"Great Jerusalem," said he, "the old cuss will be a-top of me before I can say Jack Robison. *Whoa!* dang you, *whoa.*"

Just then, Ned drew up to the edge of the well, and with his foot kicked a little dirt into it.

"Oh, Lord!" exclaimed Jake, falling upon his knees at the bottom. "I'm gone now; *whoa.* Now I lay me down to sleep—*w-h-o-a Ball*—I pray the Lord my soul to—*W-h-o-a! now.*—Oh! Lord have mercy on me."

Ned could hold in no longer, and fearful that Jake might suffer from his fright, revealed himself.

Probably Ned did not make tracks with his heels from that well. Maybe Jake wasn't up to the top of it in short order, and you might think he didn't try every night for two weeks to get a shot with his rifle at Ned. Maybe not.—I don't know. But I know if Jake finds out who sent you this, it will be the last squib you'll get.

POLICY OF ELECTIONS.

I was reading Governor——'s message to my Uncle Toby, and when I got through that part where he speaks of the evil effects of employing money on our elections, the old gentleman smiled and related the following anecdote:

"'It puts me in mind," said he, "of a young clergyman I once knew, many years since, who preached an eloquent sermon, in the course of which he took occasion to remark on the impropriety of spending the evenings of the Sabbath in social visits—a custom as he said, very common among young men. You remember the sermon, Trim?"

"O, yes, your honor, perfectly well," said the corporal, "and the clergyman, too; he was a sedate looking man, and wore spectacles."

"Well, as I was saying," continued my Uncle, "he had been preaching against the evil of going to see the girls on Sunday evening—when after service he took me by the arm,—"Come, let us go to the deacon's and spend the evening with his daughters." "How," cried I, with much surprise, "is it possible you can make such a proposal to me, after the sermon you have just concluded?" "Pshaw!" says he, "I only made those remarks in order that we might have the better chance ourselves!"

HALF-A-DOZEN QUANDARIES.—Knocking at the wrong door, and hesitating whether you shall run away and say nothing about it, or stay and apologise. Crossing the road until you see a gig coming one way and a cab another; so that if you move on you are sure to be knocked down by one, and if you stand still you may possibly be crushed by both. Finding yourself in a damp bed on a cold night, and cogitating whether you will lie still and catch your death, or get up and dress and pass the night on two cane bottomed chairs. Paying your addresses to a penniless fair one, under the impression that she is an heiress; and, of discovering your error, having the option of marrying the young lady, or being shot by the young ladies brother. Dining at a friend's house where you must either drink wine until you become intoxicated, or refrain until you become disagreeable. Coming to

WHAT STATES NULLIFY THE CONSTITUTION?—The *National Intelligencer* some time since announced its intention to carefully examine into the statutes of the Northern States, and see which of them had passed laws having a tendency to nullify, in any manner, that clause of the Constitution regarding fugitives from labor.—The only States which, according to the *Intelligencer*, have passed unconstitutional laws in relation to fugitive slaves are Vermont, Massachusetts, Michigan and Wisconsin. A gentleman from Massachusetts has, however, since satisfied the *Intelligencer* that his State does not in any manner nullify, but that her statutes are based strictly on the Prigg decision. So that it seems there are only three delinquents remaining.—We learn with pleasure that this high authority has pronounced the Pennsylvania law constitutional. "The theory of the Pennsylvania law," it says, "is founded strictly upon the decision of the Supreme Court of the United States in the Prigg case, and does not interfere with the functions of the Commissioner appointed under the United States law."

DON'T TAKE THEM.—The notes of the following Pennsylvania Banks are quoted no sale in Philadelphia. They have all gone under in the financial crisis which is now sweeping over the country:

Bank of Commerce, Erie.
Bank of Crawford Co., Meadville.
Bank of Lawrence Co., New Castle.
Bank of New Castle.
Erie City Bank, Erie.
McKean Co. Bank, Smethport.
Monongahela Valley Bank, McKeesport.
North Western Bank, Warren.
Tioga County Bank, Tioga.

The Corn Exchange Bank, Philadelphia, gives notice that the notes of the Shamokin Bank will no longer be redeemed at its counter.

NATIONAL FAST DAY.—In response to "numerous appeals by pious and patriotic associations and citizens, and in view of the present distracted and dangerous condition of the country," the President recommends that Friday the fourth day of January be set apart "as a day for humiliation, fasting and prayer throughout the Union," and that the people assemble on that day, according to their several forms of worship, to keep it as a solemn fast, and, "with deep contrition and penitent sorrow, unite in humbling ourselves before the Most High, in confessing our individual and national sins, and in acknowledging the justice of our punishment;" and also to implore Divine aid in preserving the Union and saving us from the horrors of civil war.

TALL THROWING.—The little steam fire engine owned by the "Hope" Company of Philadelphia, was recently on a visit to New York and astonished all Gotham by her performances. There were nine steamers present on the occasion, but one only, the "Southwark," would play with the Philadelphian. The "Southwark" threw a stream over a pole one hundred and eighty-seven feet high, while the "Hope" threw a single stream forty feet over a pole, of two hundred and twenty-seven feet high, two streams ten feet over a pole, one hundred and ninety-seven feet; four streams one hundred and thirty feet. The playing of the "Hope" was superior to any previously seen in New York, and elicited general praise.

CLEARFIELD COUNTY BANK.—This institution, the first under the new banking law, went into operation last week, the notes having been procured from the Auditor General, by whom they are countersigned. The notes, according to the Harrisburg *Telegraph*, are really beautiful.—The vignette of the V's represent a raft, with the hands "poling it off" the bank of the stream. A woman and child are also seated on the raft, alongside of the shanty. The vignette on the X's is a forest scene—men cutting down trees, and a saw mill in the distance. Stock has been deposited with the Auditor General for the whole amount of notes that will be issued, less five per cent, as provided by law.

☞ It will be seen by reference to the Prospectus of *The New York Ledger*, which will be found in another column, thatt he proprietors of that popular weekly has secured an array of distinguished contributors for his paper for the New Year such as has never been equaled by any publication in the world. *The Ledger* is always characterized by a high moral tone, and has a circulation larger than that of any other ten literary journals in the country.

REPORTS FROM SPRINGFIELD.—*Springfield, Ill., Dec. 15th.*—The Hon. Edward Bates had an interview with the President elect to-day, and it is said was formally offered the Secretaryship of the Interior in Mr. Lincoln's Cabmet. Mr. Bates is strongly opposed to secession, saying that it is treason and must be put down, and the authority of the government maintained at all hazards.

☞ Congress has appointed a committee of thirty-three, one man from each State, to take into consideration the state of the Union and heal by their action the breach existing between the North and the South. Gen. Scott has prepared a plan for the adjustment between the North and the South, which the Committee of thirty-three desire to have before them. The Committee organized Tuesday, the members from Arkansas, Florida and South Carolina declining to appear. Houston, of Alabama, urged prompt action, and freely expressed the opinion that the Committee might adopt a report which will restore Union feelings at the South, and avert secession. The Committee after organizing adjourned Wednesday. We hope that the efforts of this committee may be governed by true patriotism, and that their action may be speedy and of a character to restore peace and quietness to the country. This is the time to try men's souls, and we hope that discretion and a true wish to perpetuate the Union may be uppermost in the minds of those into whose hands the weal or woe of this Union is now committed. To them all eyes are turned for relief, and our prayer is that they may find the Balm of Gilead to heal the deep wounds now inflicted.

HARRISBURG & LANCASTER RAIL ROAD.—The Harrisburg *Telegraph* of a recent date, contains the following:—A meeting of the Stockholders of this company will be held in Philadelphia on the 27th inst, for the purpose of accepting or rejecting a contract for a more permanent lease of their road to the Pennsylvania Central Railroad Company. We learn that the latter company have secured stock enough in the Harrisburg and Lancaster road to control its operations, so that the entire management of that road is likely to pass into their hands.

☞ Fort Moultrie, according to a writer in a South Carolina paper, is not neglected. During the political movements the garrison at the Fort have greatly improved the exterior defences, apparently in preparation for the day of action. The same writer says that the public is not admitted within the Fort, and hence nothing can be known about the interior defences.

ABOUT BEDBUGS.—An article in *Harper's Magazine*, says that bed bugs are an American invention, and have been exported to all parts of Europe, excepting Ireland, where a bedbug is never found. The insect made its appearance in England as early as 1503, when two noblemen were "punctured" by them, and physicians were called in great haste. The bug is a parasite of the bat family, and no degree of cold or heat can effect it. Freeze one until you can break it in two; thaw the pieces and they will revive. Freeze the eggs and they will hatch as usual. Boil both insect and egg and they will revive as soon as cold. If they can get nothing to eat they will live and propagate on nothing. Evidently a hopeless case.

NOT WELL POSTED.—The London *Times* seems to feel much regret that Mr. Webster will not be in Mr. Lincoln's cabinet, and thinks it a great miscalculation in the Republican party which has forced "him and Mr. Everett, and a number of the same party, to ally themselves to the South, and seek, by concessions to the slave-owning interest, to obtain a position which they believed the North would never be able to give them." Mr. Webster has been dead quite eight years, yet the news has not reached the *Times*.

LOCAL ITEMS.

LOCAL U. S. SENATE.—We are pleased to note that a number of our citizens have taken the initiatory steps toward forming a local United States Senate, and we are of the opinion that its sessions will prove advantageous to all who are concerned in them. It is not yet full, as will be seen by the following proceedings, consequently all who feel like taking part in the deliberations of such a body, can secure a seat by attending at next meeting.

ALTOONA, Dec. 18, 1860.

At a meeting called in Patton's Hall, on Tuesday evening, 18th inst., to consider the propriety of forming a local United States Senate, the meeting was organized by calling Col. John Woods to the chair and appointing Geo. W. Patton Secretary. The Chairman stated the object of the meeting, after which, on motion,

Resolved, That a committee of three be appointed to report officers for the organization of the Senate.

The Chairman appointed G. W. Patton, D. T. Caldwell and B. F. Rose said committee, who, after retiring for a short time, returned and submitted the following report:—

For President—Wm. Domer, David Galbraith.
For Clerk—Theodore Peterson, Joseph Law.
Door-Keeper and Serg't at Arms—John Buel.

The committee would recommend the adoption of Jefferson's Manuel of Parliamentary Practice for the government of this Senate.

The Committee have also prepared the names of the several States to be drawn by the members. All of which is respectfully submitted.

COMMITTEE.

On motion, the report of the committee was received.

On motion, *Resolved*, That we now proceed to draw for States, and that T. B. Patton draw the slips of paper from the hat for the members, as their names appear on the list.

On motion, adjourned.

G. W. PATTON, *Sec'y.*

DELICATE SURGICAL OPERATION.—On Monday afternoon, a surgical operation of the most delicate nature was performed by Drs. Gemmill, of Altoona, and Roberts, of Tyrone, upon a little son of Mr. John Litzinger's, of Sinking Valley. On Saturday, the little fellow, who is but three years old, got a grain of corn in his windpipe.—He suffered severely for a few hours, when it passed through the larynx into the trachea, and he remained comparatively easy, until Monday morning. Every thing had been done by Dr. Roberts, to expell the grain that could be devised, but to no purpose, and as inflamation was beginning to set in, it became evident that nothing but a surgical operation could save his life. Dr. Roberts called in Dr. Gemmill, and on Monday afternoon, the windpipe was opened, and the grain of corn removed. The little fellow had become entirely livid in the face from the difficulty of respiration, but the instant a free circulation of air to his lungs was afforded by the artificial opening he revived, and in a few minutes after the operation was talking and laughing to the great delight of his parents, who considered him as rescued from the grave. —*Tyrone Star.*

PAY YOUR DEBTS.—Every man who owes one dollar, and has the money wherewith to pay his indebtedness, should pay at once. It is wrong to hold back money at any time, but doubly wrong to do it now. There is no telling what good may be accomplished by one dollar set in motion at this time. For instance, if you owe us one dollar, come and pay it and it will enable us to pay our paper merchant—the merchant will pay the paper manufacturer—the manufacturer will pay his workmen—the workmen will pay the provision dealer—the provision dealer will pay the farmer—the farmer will pay his laborer—the laborer will pay his store bill—the store-keeper will pay the city dealer—the city dealer will pay the bank from which he has borrowed money, and thus the banks, the times, and everybody will be eased. Thus the money will go around, as it should, doing good as it was intended to do when it was created. If you don't like to commence by paying us, or think others need it more than we do, pay them, and it will come around to us some time. Only pay.

GAS BILLS.—Gas consumers in this place are complaining that their bills increase with each month, as compared with preceeding months.—In some cases meters may not register correctly—but as a general thing the increase of bills may be set down to increased consumption, owing to carelessness in not regulating the flow through the burner. A full head of gas will increase the consumption one half, without any increase of light. Keep the flow properly regulated at the meter and the burner, so as to prevent *waste*, and the gas bills will come down a peg.

☞ The notorious "Smith" family is as extensive as the notorious "Jones" family, and both are well represented in this place, but Geo. M. Smith, who keeps a confectionary, fruit and notion store, on the corner of Main and Caroline streets, in Tuch's old stand, is determined to become the most notorious of his side of the house by spreading before old and young, such a large, varied and inviting supply of Holiday nick-nacks, for both old and young. If you want anything to make your children happy on Christmas, go to Smith's and you'll get it.

"DAD'S STRUCK ILE."—As the story goes, a poor blacksmith, living in one of the towns in the northern part of the State, had a pretty daughter who was waited upon by a young man who was in no better circumstances than her father. One day the blacksmith took it into his head to dig for oil, and was successful in striking a rich stream. Of course the old gentleman's fortune was made, and the daughter felt the dignity of her position in society. Accordingly when the aforesaid young man proffered his services as escort to the blacksmith's daughter, on the Sunday evening following the discovery of oil, she put her finger to her nose and told him "no, yer can't come it; Dad's struck ile."

Caughlling, of the Blair County Book and Music Store, on Virginia Street, opposite Lowther's store, did not strike "ile," but has struck on a plan to sell cheaper than any one else. He has a fine stock of Books and Toys of all kinds, Violins, Guitars, Accordeons, &c., Violin Strings, Sheet Music, Fancy Candies, Toy Books, Albums, paper of all kinds, Visiting Cards, and an endless variety of useful and beautiful articles for the holidays. His window is the most attractive in the place. Come one and all and see.

"MAN KILLED."—So common has this heading became of late, that it has lost all the horor it once possessed. People now read it without a shudder, and on looking over the item, if the name of the killed was not an acquaintance, they scarcely read all the particulars, or if they do, they will not remember it longer than they are reading it. We have this week to record the instant killing of a man named Meloy, who was run over by an engine, in the yard in this place, on Friday last. He was crossing the track, when he observed an engine coming towards him, and in endeavoring to get over quickly he slipped and fell across the rail and the engine ran over his breast, crushing it horribly and almost severing both arms above the elbow. He had no relatives in this place.

THE "BRANT HOUSE."—The corner room in this well-known house, seems likely to be a favorite resort for all who are in search of confectionaries, nuts, fruit, toys, &c., for the Holidays. The proprietors of this establishment have just received a most elegant assortment of plain and fancy French and Domestic Candies, embracing every conceivable design and flavor, fresh nuts of all kinds, raisins, figs, &c. Also, all kinds of tobacco and cigars that may be called for, together with a good supply of Stationery. They are also prepared to supply almost any of the popular daily and weekly papers, and monthly publications. Be sure and call on Clabaugh & Co., and Andy or Jacob will serve you satisfactorily.

PLEAD GUILTY.—We take the following local item from the Pittsburgh *Chronicle* of Saturday last: "In the United States District Court, yesterday (Friday) afternoon, Jno. A. McConnel was arraigned for the embezzlement of the contents of certain letters which passed through the Post office at Newry, Blair county, during the early part of the month of November. The indictment contained three counts; the first and second charging theft, and the third opening letters with intent to abstruct correspondence. A plea of guilty, on the last count was accepted, and the prisoner sentenced to pay a fine of one hundred and fifty dollars, and undergo six months imprisonment in the Western Penitentiary.

☞ Our shop-keepers are now laying in their supplies of Holiday notions, and their windows wear an inviting appearance, and none more so than that of Jake Wise, on the corner of Virginia and Caroline streets, where may be found all kinds of notions to please the children, all kinds of fruits and spices for holiday dinners, together with groceries, &c. See his advertisement in another column.

SEWING.—Mrs. Renner would announce to the ladies of Altoona, that she is prepared to do all kinds of sewing, at reasonable prices, if taken to the residence of her father, George Hawkesworth, in East Altoona. We ask our lady readers to remember Mrs. R., and if they have sewing they wish done up in a neat and substantial manner, we hope they will give her their patronage.

IMPROVED REVOLVERS.—The New Haven *Palladium*, contains the following notice of a new invention, which, if it proves to be all that is claimed for it, will supercede the far famed Colt's revolver:—

"There seems to be no limit to Yankee ingenuity, no matter to what it may be applied.—Great results are sure to follow the pressure of his genius. It has been thought that in Colt's pistol-revolvers Yankee skill had exhausted itself; but it is not so. Mr. J. P. Lindsey, of No. 79 Union street, is the inventor of a new weapon, which weighs less than Colt's five-shooter, that will shoot *ten* balls in less time than it will require to discharge *five* from Colt's. This seems incredible; but it is so, and the fact can be demonstrated at any time. The pistol is elegantly wrought, simple in its construction, easy to carry and handle, and universally admired by all who see it. It repeats its discharges instantaneously. Two balls or one may be thrown at the same time. The weight of this weapon is only sixteen ounces; the weight of the balls is eighty to the pound.

The same inventor and manufacturer has another pistol, called "Lindsy's Young-America Two-Shooter," weighing only eight ounces, and carrying balls of forty to the pound. It has but a single barrel, yet shoots double, or two shots in rapid succession, or both at once, as may be necessary. For personal defense this weapon is unsurpassed; because the discharge of its two heavy balls will be as conclusive an argument in that line of business as a dozen. The locks cannot be well described on paper, but they work easily, are not liable to wear out soon, or break, or cause accidents.

Mr. Lindsey is receiving orders for both these pistols faster than he can make them. He has now, in advance, orders for 2,000 of the two-shooters, and for 3,000 of ten-shooters. So "it's an ill wind that blows nobody good." We should, perhaps, add that most of these destructive firearms are ordered by our Southern "brethren"—we hope, for their protection, not to harm us, who would not "hurt a hair of their heads."

PLAIN PRAYING.—Thomas Stooton, the venerable chaplain of the House of Representatives, in his prayer at the opening of the session, occasioned an irreverent grin on the faces of members by the following invocation to the Almighty Power: "O Lord, consider our President and his advisers! They *lack wisdom*, but if they ask Thee, Thou wilt give them liberally and upbraid them not"

☞ The Silver Medals, Plate, Diplomas, and all Credentials of Duff's College, are on exhibition in the office, and answer the insinuations of the *soi disant "only respectable teacher in the city,"* (?) who teaches where they "take you in, for $30," and when they have got you in, the first lesson you learn is, "$8 to $9 *for stationery,*" (which cost $3,50 at Duff's.) The next *lesson* is "$5 *extra for the day writing class;*" the last is 3 or 4 weeks extra time and board. when a College, which has recently been sold out by the Sheriff, keeps up old gasconade of doing "*more than treble the amount of business done by others,*" and announces "*over seventy-five State and National Fair first Premiums.*" when they cannot exhibit a dozen of them. you may measure all their other pretensions by the same standard. Were a country writing master to attempt such a palpable imposition, he would probably hear some plain talk from those who were deceived by him.

A NICE POINT IN LAW.—Some weeks ago a man named Cathcart was tried and convicted in the Clearfield Court for the murder of his wife, and sentenced to be hung. On Tuesday, H. Bucher Swoope, Esq., one of Cathcart's attorneys, arrived in this city, and obtained from Gen. Miller, Prothonotary, a writ to take the case to the Supreme Court, where it is Mr. Swoope's intention to test the right of a Governor to sign and issue a death warrant. The courts below will probably wait with anxiety to see what arguments will be introduced, and their merits for ingenuity. If Mr. Swoope convinces the Supreme Court that the Governor has no right to issue the little document which sends men to the other side of Jordon, he will have achieved a much greater name and reputation than any man now in the legal profession.—*Harrisburg Patriot and Union.*

☞ The State convention in South Carolina is called for the purpose of *Seceding*—that of Georgia for *Deliberating*—and those of Alabama, Mississippi and Louisiana for *Consulting*.

☞ The *South Carolinian* says: So far, there has not been a single opponent of secession elected in the State.—Our Convention will, therefore, we have no doubt, be unanimous for immediate secession.

Blood Food! Blood Food!!

Are you despairing? Have you tried other remedies and failed? Do you classify Dr. Bronson's Blood Food with other patent medicines? Listen!

It would be impossible to let you know of the Blood Food without resorting to the advertising. Now, that quacks resort to the same method to acquaint you with their patent medicines, does not make this preparation the same style of article at all as theirs. Then do not despair. Though you have tried other remedies and failed, try this and you will surely be cured. Consumptive! you may be cured by this. Weakness of the Stomach and Indigestion.

Another Great Cure effected by Barhave's Holland Bitters.

The wife of Pieter De Witte, living in Holland Town, Sheboygan county, Wisconsin, suffered much from Weakness of the Stomach and Indigestion. She had been under a physician's care for some time, but the disease seemed to baffle even his skill. She purchased some HOLLAND BITTERS at our office, which has given tone to her stomach; her appetite and strength are returning, and we firmly believe that this is another great cure effected by your medicine.

We have still to record many wonderful cures effected by this remedy, but must wait another opportunity. One thing you can rely upon, what we have published are from persons much respected in our community, and are literally true. J. QUINTUS,

PROSPECTUS
OF
THE NEW-YORK LEDGER.

We intend to make the *New-York Ledger* for 1861 superior to that of 1860, or any other year in the past. Among our contributors will be the President of the United States, Edward Everett, George Bancroft, William Cullen Bryant, John G. Saxe, George P. Morris, N. P. Willis, George D. Prentice, Thomas Dunn English, Sylvanus Cobb, Jr., Emerson Bennett, T. S. Arthur, P. Hamilton Myers, Col. Walter B. Dunlap, S. Compton Smith, John Esten Cooke, Mrs. Ann S. Stephens, Mrs. Southworth, Fanny Fern, Anna Cora Ritchie, Alice Cary, Mary Forrest, Marion Harland, Miss E. A. Dupuy, Mary Stanley Gibson, Phebe Cary, and many Clergymen, Professors, in Colleges, Statesmen, and other eminent writers residing in different parts of the Union.

Our *corps* of contributors for the coming year will be so large, and will embrace such a variety of eminent talent, that every department of literature will receive the particular attention of some one competent to do it ample and special justice. Whether it be popular romance, scientific essay, historical sketch, scholastic disquisition, spicy paragraph, pathetic ballad, humorous poem, old-fashioned love story, timely editorial, or any other ingredient of popular and elevated journalism, that is to be furnished, the *Ledger* corps will be sufficient for the task. In fact, our contributors will send us from week to week much more matter than we can possibly use, so that we shall always have a fresh and superabundant supply, from which to select the very best. These facts, taken in connection with our largely increased means, facilities, and experience, warrant us, we think, in promising our readers a family paper for the year 1861 which will be more interesting and instructive, and in every respect more valuable, even than the *Ledger* has been in the past.

As an indication of the popularity of the *Ledger*, we need only state the simple fact that its circulation is larger than that of any other ten literary journals in the country. Its great success is owing to the fact that we secure the best writers in the country, and spare no expense in getting up the best family paper—a paper of high moral tone. The exalted reputation of its contributors, the practical and invariably pure and healthy character of all its articles, is the care which is taken that not even one offensive word shall appear in its columns, and the superiority of its Tales and Sketches, have gained for the *New-York Ledger* a position that no literary paper has ever before reached.

Anna Cora Ritchie of Richmond, Va., and Col. Walter B. Dunlap, the author of the popular "Forrest Sketches," which were published in our columns some time since, will each begin a story in the *Ledger* early in the new year.—Mrs. Southworth is also engaged upon a new tale.

In the next number of the *Ledger*, we shall publish a very interesting article, written expressly for our columns, entitled, "A Day with Lord Byron, from the pen of the Hon. George Bancroft.

It is with much satisfaction that we announce that Mr. Everett will continue his elegant and interesting contributions to the *Ledger* during the next year.

As this is the season of the year when Postmasters and others are in the habit of forming clubs, we direct their particular attention to

OUR TERMS.

Single copies, $2 per annum; two copies, $3; four copies, $6; eight copies, $12. Postmasters and others who get up clubs can afterwards add single copies at $1.50. The party who sends us $12 for a club of eight copies (all sent at one time) will be entitled to a copy *free* for his trouble. Terms invariably in advance. No subscriptions taken for a less period than one year. Canada subscribers must send twenty-six cents in addition to the subscription, to pay the American postage, which is half a cent a copy on every paper. The notes of all specie paying banks taken at par. When a draft or check can conveniently be sent it will be preferred, as it will prevent the possibility of the loss of money by mail.

PRACTICAL CALCULATOR.

ROHRER'S PRACTICAL CALCULATOR,
A Book of Plain Rules and Calculations for Business Operations, by Martin H. Rohrer, Practical Surveyor and Conveyancer. New Edition, published by J. B. Lippincott & Co., Philadelphia.

This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handiest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in solving it; in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, declining it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works is in the hands of the teacher in the school room—it facilitates time and insures correctness.

THE WORK TREATS OF THE
Measurement of Land, of Lumber, of Brick and Brick Work, of stone and stone work, of grain and grain bins, of coal and coal bins, of wood, of solids, of liquids, of circular, square or irregular vessels, of cisterns and vats, of roofing, of plasterer's, painter's, glazier's, paver's, plumber's, paper hanger's and upholsterers' work. It treats of currency and of foreign and domestic exchange, of the decimal system, of reduction and its extended application to business, of simple and compound interest, and their entire application to business transactions, with the laws and usages governing and regulating the same, together with numerous commercial forms—of legal tender, of partial payment on notes, of banking and bank discount, of equation of payment and of partnership accounts, of assessment of taxes, of weights and measures, of square and cubic measure, of the square root and its application to business of surfaces, of excavation, and of many other important practical matters not within the scope of an advertisement to mention.

IT IS JUST THE BOOK FOR THE
Farmer, the merchant, the mechanic, the artizan, or the professional man. It has proven a valuable auxiliary to the lawyer, the justice of the peace, the conveyancer, and real estate broker, to the assessor, the banker, the clerk, to the civil engineer and the surveyor, to the carpenter and bricklayer, to the stonemason and the plasterer, to the paper hanger and upholsterer, to the plaver and the tiler, &c., &c.; each and all will find it adapted to their various wants better than any book published.

☞ Mailed (post paid) to any part of the United States, upon receipt of the money. Price of a single copy, in cloth, 60 cents, or two copies for $1,00. Bound in pocket-book form, morocco, $1,00 per copy.

MISCELLANEOUS.

THE AMALGAMATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

'ardly Realized.

Hi 'ad 'n 'orrible 'eadache this hafternoon, hand I stepped into the hapothecaries hand says hi to the man, "Can you hease me of an 'ondache?" "Does it hache 'ard," says 'e. "Hexceedingly," says hi, hand upon that 'e gave me a Cephalic Pill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

☞ Headache is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting *sick headache*, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches; Anæmia and plethora are also affections which frequently occasion headache. Idiopathic Headache is also very common, being unusually distinguished by the name of *nervous headache*, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking, vomiting; under this class may also be named *Neuralgia*.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the unerring index.

Constipation of Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentary, Diarrhœa, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the disease named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insiduous approaches of disease and destroy this dangerous foe to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is that headache?
Mrs. Jones.—Gone! Doctor, all gone! the pill you sent cured me in just twenty minutes, I wish you would send more so that I can have them handy.
Physician.—You can get them at any Druggist. Call for Cephalic Pills. I find they never fail, and I recommend them in all cases of Headache.
Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a *real blessing*.

TWENTY MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from total loss by this valuable invention. "Having made his Glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

☞ Over excitement, and the mental care and anxiety incident to close attention to business or study, are among the numerous cases of Nervous Headache. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks by taking one of the Cephalic Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

FACT WORTH KNOWING.—Spalding's Cephalic Pills are a certain cure for Sick Headache, Bilious Headache Nervous Headache, Costiveness and General Debility.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalic Pill for relief of Headache, and the use Quinine for the prevention of Fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

☞ Did you ever have the Sick Headache? Do you remember the throbbing temples, the fevered brow, the loathing and disgust at the sight of food. How totally unfit you were for pleasure, conversation or study. One of the Cephalic Pills would have relieved you from all the suffering which you then experienced. For this and other purpose you should always have a box of them on hand to use as occasion requires.

All kinds of
Headache.

By the use of these Pills the periodic attacks of *Nervous or sick Headache* may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.

They seldom fail in removing the *Nausea* and *Headache* to which females are so subject.

They act gently upon the bowels,—removing *Costiveness*.

For *Literary Men, Students*, Delicate Females, and all persons of *sedentary habits*, they are valuable as a *Laxative*, improving the *appetite*, giving *tone* and *vigor* to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headache, whether originating in the nervous system or from a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, *and the absence of any disagreeable taste renders it easy to administer them to children.*

I beg leave to call the attention of the citizens of the United States to the above Wines and Liquors, imported by UDOLPHO WOLFE, of New York, whose name is familiar in every part of this country for the purity of his celebrated SCHNEDAM SCHNAPPS. Mr. Wolfe, in his letter to me, speaking of the purity of his Wines and Liquors, says: "I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the city of New York, that all the Brandy and Wines which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprietor's name on the wax, and a fac simile of his signature of the certificate.—The public are respectfully invited to call and examine for themselves. Read the following from the New York Courier:
ENORMOUS BUSINESS FOR ONE NEW YORK MERCHANT.—We are happy to inform our fellow-citizens that there is one place in our city where the physician, apothecary, and country merchant can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this merchant's extensive business, although it will well repay any stranger or citizen to visit Udolpho Wolfe's extensive warehouse, Nos. 18, 20 and 22, Beaver street, and Nos. 17, 19 and 21, Marketfield street. His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand cases; the Brandy, some ten thousand cases.—Vintages of 1820 to 1856; and ten thousand cases of Madeira, Sherry and Port Wine, Scotch and Irish Whiskey, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wine, &c., in casks, under Custom-House key, ready for bottling. Mr. Wolfe's sales of Schnapps last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years he may be equally successful with his Brandies and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and Liquors for medical use should send their orders direct to Mr. Wolfe, until every Apothecary in the land make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure Wines and Liquors.

We understand that Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, should be sustained against his tens of thousands of opponents in the United States, who sell nothing but intimitations, ruinous alike to human health and happiness.

PROF. L. MILLER'S
HAIR INVIGORATOR!!

AN EFFECTIVE, SAFE AND ECONOMICAL COMPOUND.

FOR RESTORING GRAY HAIR to its original color without dyeing, and preventing the hair from turning gray.

FOR PREVENTING BALDNESS, and curing it, when there is the least particle of vitality or recuperative energy remaining.

FOR REMOVING SCURF AND DANDRUFF, and all cutaneous affections at the Scalp.

FOR BEAUTIFYING THE HAIR, imparting to it an unequalled gloss and brilliancy, making it soft and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this unequalled preparation, convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation at present in use. It cleanses the head and scalp from *dandruff and other cutaneous diseases*, causes the hair to grow luxuriently, and gives it a rich, soft, glossy flexible appearance, and also where the hair is loosening and thining, it will give strength and vigor to the roots, and restore the growth to those parts which have become bald, causing it to yield a *fresh covering of hair.*

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations had failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will effectually prevent the *hair from turning gray* until the latest period of life; and in cases where the hair has already changed its color, the use of the Invigorator will with certainty *restore it to its original hue*, giving it a dark, glossy appearance. As a perfume for the toilet and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it affords in *dressing the hair*, which, when moist with the Invigorator can be dressed in any required form so as to preserve its place, whether plain or in curls—hence the great demand for it by the ladies as a *standard toilet article* which none ought to be without, as the price places it within the reach of all, being.

ONLY 25 CENTS

per bottle, to be had at all respectable druggists and perfumers.

L. MILLER would call the attention of Parents and Guardians to the use of the Invigorator, in cases where the children's hair inclines to be weak. The use of it lays the foundation for a *good head of hair*, as it removes any impurities that may have become connected with the scalp, the removal of which is necessary both for the health of the child, and the future appearance of its Hair.

CAUTION.—None genuine without the fac simile LOUIS MILLER being on the outer wrapper; also, L. MILLER'S HAIR INVIGORATOR, N. Y. blown in the glass.

MEDICATED FUR CHEST PROTECTOR, A SAFE SHIELD AGAINST THOSE fearful diseases Bronchitis, Coughs, Colds, and other affections of the Lugs, which arise from the exposed state of the chest, *according to fashion* and the continual changes of our Climate, for sale at the Drug Store of G. W. KESSLER.

MOFFAT'S
LIFE PILLS and PHŒNIX BITTERS.

THESE MEDICINES HAVE NOW been before the public for a period of thirty years, and during that time have maintained a high character in almost every part of the globe, for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

The following are among the distressing variety of human diseases in which the

VEGETABLE LIFE MEDICINES

are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure, healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss or Appetite, Heartburn, Headache, Restlessness, Ill Temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence, and violent purges leave the bowels costive within two days.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of respiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently, in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also WORMS, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

SCURVY, ULCERS, and INVETERATE SORES, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

SCORBUTIC ERUPTIONS and BAD COMPLEXIONS, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the diseases of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two in the worst cases.

PILES.—The original proprietor of these medicines, was cured of Piles, of 35 years standing, by the use of the Life Medicines alone.

FEVER & AGUE.—For this scourge of the Western country, these medicines will be found a safe, speedy and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—try them, be satisfied, and be cured.

BILLIOUS FEVERS and LIVER COMPLAINTS.—General debility, loss of appetite and diseases of females—the medicines have been used with the most beneficial results in cases of this description;—Kings Evil and Scrofula, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painters' Colic, are speedily cured.

MERCURIAL DISEASES.—Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury, infinitely sooner than the most powerful preparation of Sarsaparilla.

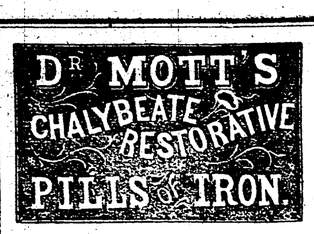
HAIR, HAT, TOOTH, SHAVING, Paint, Sash and Varnish Brushes at KESSLER'S.



An aperient and stomachic preparation of Iron purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible.—Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a protracted travel in a distant land. Some very signal instances of this kind are attested by Female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and the complication of nervous and dyspeptic aversion to air and exercise, for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting nor overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked Diarrhœa, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this *remedy* and *restorative*, in the cases peculiarly afflicting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating the pain and reducing the swellings and stiffness of the joints and muscles.

In intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in flat metal boxes containing 50 pills, price 50 cents per box; for sale by druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to

GREAT IMPROVEMENT IN COOKING STOVES.

CONSUMPTION OF SMOKE AND GAS AND SAVING OF FUEL.

The subscriber takes pleasure in offering to the public NEW GAS AND SMOKE CONSUMING

Cooking Stove, recently patented, which is destined to supercede all others, as it requires

ONE-THIRD LESS FUEL

than other stoves and is more easily, quickly and regularly heated. No unpleasant smell of gas arises from this stove from the fact that it is all consumed ere it can escape. There is no trouble from smoke as that unpleasant and often annoying exhalation is also consumed inside of the stove. Neither is there any danger of flues or chimneys becoming clogged with soot or the mortar loosened by the gas arising from coal fires.

Persons wishing to purchase stoves are invited to call at the store of the subscriber, in the Masonic Temple; and examine the above stoves. JOHN SHOEMAKER,

HOSTETTER'S
STOMACH BITTERS.

The proprietors and manufacturers of HOSTETTER'S CELEBRATED STOMACH BITTERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhœa, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.
